**Always Prepared to Assist**

# R & S Machinery & Design ...

---

R & S Machinery & Design was originally R & S Textile Machinery Company, founded in Allentown, PA in 1925 and has been in continuous operation since that time. In 1962, the Allentown operation was relocated to the present site in Charlotte, NC.

R & S Machinery & Design specializes in new and remanufactured winding equipment for the textile industry as well as pre-owned machinery.

Our new Model RS-HDW Heavy Duty Winders and Model RS-SP1 Spoolers are available in several variations.

R & S Machinery also offers remanufactured Model 959, 965, 966, 967, 968 Take-up Machines, and Model 861

Precision Winders. We also maintain a supply of replacement parts for these machines.

Other manufactured equipment includes:

- Godet Roll Stands
- Fibrillators
- Slitters
- Quench Tanks
- Extrusion Lines

Due to our flexibility, we offer custom applications that are quite often not available through normal outlets.

R & S Machinery & Design has supplied new and remanufactured winders to most of the major fiber and tape producers throughout the world.
